

```
void f1(void);
void f2(int);

int main(void) {
    f1();
    return 0;
}

void f1(void) {
    int imidate = 3;
    char broiled = 'c';
    f2(imidate);
    imidate = 10;
}

void f2(int a) {
    int b = a;
}
```
